the Mid-Atlantic Masonry Association

BUILDING INFORMATION MODELING FOR MASONRY (BIM-M) – STATUS AND CASE STUDIES

THURSDAY - DECEMBER 14, 2017

TIME: 11:00AM - NOON (Eastern Time)

LENGTH: One Hour

WHO SHOULD ATTEND:

Engineers, Architects, Building Code Officials, General Contractors, Masons, Masonry Instructors, MAMA Members

CREDITS: 1 AIA/CES LU HSW for Architects, 1.0 Learning Unit for Engineers & 1.0 MCAA credit for Mason Contractors.

Certificates will be supplied via email after completion of the course.

COST: FREE

PROGRAM DESCRIPTION

An early adopter of BIM and Revit, this multi-discipline firm’s engineers will showcase 2 major case studies of projects from a designer’s perspective. They will talk about their process, what they do and why they do it – tips and tricks! They will also provide information on resources and current industry tools available through the BIM-M initiative

PRESENTER – Morgan Wiese, PE ~ Project Engineer/ Associate & Rob Grant ~ BIM Manager Integrus Architecture, Seattle, Washington.
